

REMARKS

Favorable consideration and entry hereof are respectfully solicited.

Claims 34 through 40 are pending, with Claims 34, 37, and 39 being independent. The specification has been amended.

The December 5, 2005 Notice of Allowability (1) objected to the drawings on the grounds that S402 in Fig. 4 is not mentioned in the specification and required that a proposed drawing correction, corrected drawings, or an amendment to the specification is required, and (2) stated that the first line of the specification should be amended to include the patent number for the parent application. All objections and requirements are respectfully traversed, and are submitted to have been obviated by (1) the amendment of the specification at page 15 to insert mention of S402 in Fig. 4, as kindly suggested in the Notice of Allowability, in view of which withdrawal of the requirement to provide corrected drawings is earnestly solicited, and (2) the amendment of the first line of the specification to include the patent number for the parent application.

Favorable consideration, entry hereof, and withdrawal of the requirement to provide corrected drawings earnestly are solicited.

Applicant's undersigned attorney may be reached in our Washington, D.C. office by telephone at (202) 530-1010. All correspondence should be directed to our address listed below.

Respectfully submitted,
